

On May 3, 2026,  
Carlene, Di, Dianne,  
Fred, Jackie, Jon, Lori,  
Lorne, Nathalie, Scott,  
Steffany, and Wendy  
hiked the Epinette  
Creek trails in Spruce  
Woods Provincial Park.

There were an  
incredible amount of  
crocuses in bloom  
throughout the trails!

Along the hike, we came across a small green snake that was very well camouflaged.

We continued on to the Cedar loop and took a break at the lookout bench for some smile cookies.

On the way back, the wind picked up and we saw dark rain clouds looming ahead. It started to rain just as the group arrived at the parking lot.

Overall, it was a wonderful group and a great day for a hike!
