

## **LAKE KATHERINE HIKE by Event Leader Kari Trinder Hume**

**On Saturday, August 21, 2021**, six humans (Kari, Di, Lynn, Alexa, Jamie, and Charlene) and one canine friend (Spirit) did some light hiking around Lake Katherine in RMNP.

Thankfully, the rain stopped just before the hike began. While mostly sticking to the trail, a small amount of very mild bushwhacking was also done.

After the hike, the group gathered at one of the picnic areas to visit and eat their lunches. Two of the members left after lunch while the four remaining kayaked partway around the lake.

This was the first time kayaking for one of our members, who very much enjoyed the experience.

The wind started to really pick up, which made paddling difficult on the far side of the lake, so the kayaking was cut short.

A good time was had by all!
