

# Compound/Lake Katherine Cross-Country Ski March 5, 2022

On Saturday, March 5, 2022, at 10:30am, Kari, Di, Clarke, Andrée, Sharon, and Stu set out to ski the Compound Trail followed by the Lake Katherine Trail in RMNP. The temperature was a mild -8 degrees Celsius to start and there was hardly any wind, making for a beautiful day. The park had around 5 cm of snow the day before. The fresh snow made the conditions great for snow plowing down the hills. Half of the members skied the short loop of the Compound Trail while the faster skiers completed the long loop.

After all the skiers finished skiing the Lake Katherine Trail, they enjoyed hot chocolate together (thanks, Clarke!) and had a wonderful visit. The temperature at the end of the ski was -6 degrees Celsius.

It was a wonderful day to enjoy beautiful trails with great company.
