

Brandon Hills June 15th hike report

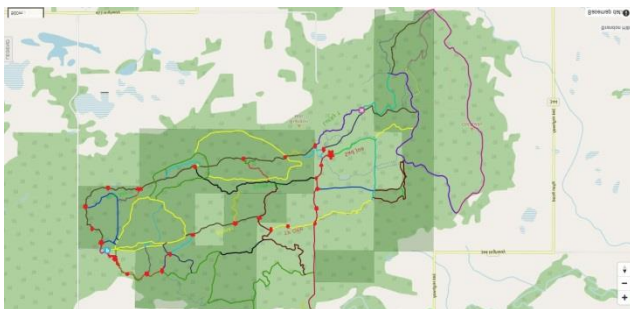

4 hikers out of the original 9 headed for the trailhead at the southeast corner of Brandon Hills. Unfortunately the road into the trailhead was a mucky mess and was impassable. So we headed back to the trailhead at the main Brandon Hills parking lot.

Jeannine, Cathryn, Olwen and James headed off from the parking lot in the rain. For one of the hikers it was their inaugural Westman Wilderness Club event.

We may have had to use a different Trailhead, but our destination was still the same. We made an 11 km loop to the fire tower and had a snack in the rain. A couple of the hikers made their way up the tower to catch the view of the surrounding area which was obscured slightly by fog.

The trails trekked upon that day included: North Face, Two Way, B Line, Blister, Broken Hoe, TP One, Fire Road, Sad Joe, Tower Connector, Burning Bush and Fire Ant.

After the hike hot beverages were enjoyed by all at Forbidden Flavours.
