

Club members Di, Cris, Jacques, Judy, Bert, Robert, Audrey and Clarke cycled the Baldy Lake and Central trails 18.5 K to Gunn Creek campground Friday. It rained more and longer than forecast but spirits remained high. Saturday a bike/hike along the Central trail in beautiful fall weather included a side trip to the warden patrol cabin, horse camp and for some the Sugarloaf hills, culvert/bridge over the Birdtail river, old herder's cabin and junction with the Tilson loop. A lone female hiker from Germany chatted briefly at the Sugarloaf junction.

We were pleased to share the campground Saturday night with three cyclists from Dauphin who are old friends of Clarke. They were enroute Minnedosa river and out Monday down the Strathclair trail. Much visiting took place around respective blazing camp fires.

Saturday and Sunday were beautiful fall days. Various riders met moose, a bear, a weasel and garden snakes and salamanders. Despite some calling on our part no elk bugled back. We were somewhat surprised to meet a Park warden driving a quad Sunday on a routine patrol and had a nice visit.
