

Event Review Cairns Cabin Backpack

Great weekend event with lovely weather for a hike. Six people, Di, Judy, Bert, Barb, Pascal and myself, arrived at the cabin to find it double booked. After it was specifically asked if there was any one else booked for that night!!!!!!!!!! The interesting thing about it was the fact that it was the same people with whom we had been double booked about three or four years ago. We all had a great time and enjoyed the extra company. Lots of good stories and conversations. We shall meet again Paul and Laurie I am sure.

The trail was about the driest seen in years. About ten or fifteen trees across the trail after last week's wind. Wildlife sightings were limited this year.

I don't have any pictures to share so hopefully other will do so.
